

**SERIES OF WEBINARS ON
AFRICAN SWINE FEVER (ASF): PREPARING FOR ASF
RISK ANALYSIS III – RISK MANAGEMENT AT THE FARM LEVEL**

This series dedicated to risk analysis will consist of four webinars. Although the webinars are independent of each other, we recommend attending all of them to gain a comprehensive understanding of how to perform risk analysis, become familiar with the specific risk analysis tools, and learn about the outcome of recent risk analyses.

Dates	Topics
9 November	Foundations of Risk Analysis
16 November	Practical Tools for Risk Prevention
30 November	Risk Management at the Farm Level
14 December ¹	Results of ASF Risk Analysis for Latin America and the Caribbean

¹ Please be aware that this seminar, originally scheduled for 7 December, has been rescheduled to 14 December.

SEMINAR III

RISK MANAGEMENT AT THE FARM LEVEL

Date: 30 November 2021

Time: 11:30 a.m. - 1:40 p.m. [Central America]

Objective: Provide all countries in the Americas and the Caribbean with information on practical risk analysis tools available for ASF and other swine diseases, general principles of and guidelines for the risk analysis process, evaluation phases, how to utilize the tool, as well as how to interpret and utilize RA results.

Target audience: Ministries of Agriculture and Livestock, official veterinary services, private veterinary doctors, pork farmers and farmer organizations, veterinary associations, etc.
